ABOUT ME

Frontend Developer with a **strong Computer Science foundation** from HCMUT and **2 year of experience** in delivering high-quality, scalable web applications using **React.js, Next.js, and TypeScript**. Skilled in crafting responsive, user-friendly interfaces for large-scale banking and blockchain projects.

SKILLS

Core Skills: TypeScript, JavaScript, React.js, Next.js, React Native, Angular, TailwindCSS, Redux Toolkit, React Hook Form, React Query, React Router v7, MUI, etc

Additional Skills: NestJS, MongoDB, MySQL, Jest, Selenium, Docker

Tools: Git, VSCode, Figma, Jira Software, Postman, Docker, Adobe Photoshop, Adobe Illustrator

WORK EXPERIENCE

Orochi Network - Junior Front-end Developer

Apr 2025 - Present

- Contributing to decentralized application by integrating blockchain features and improving UX.
- Enhanced security & SEO for company products and developed reusable UI package.
- Participated in code reviews, enforcing frontend best practices.

ATOM Solution - Fresher Front-end Developer

Mar 2024 - Apr 2025

- Developed and maintained banking platforms for **BVBank (DigiStore)** and **OCB**, implementing 15+ frontend features and optimizing website performance.
- Collaborated in UI/UX updates based on bank requirements.

Xelex Corporation - Software Engineering Intern

Jun 2023 - Aug 2023

- Built features for a Monday App-inspired project, enhancing collaboration and real-world project simulation skills.

PROJECTS

Token Generation Event (TGE)

May 2025 - Present

React, React Router v7 (Remix), TypeScript, TailwindCSS, Zustand, viem, wagmi, smart contracts

- Developed a blockchain-based token launch platform with on-chain minting, automated vesting schedules, and secure claim portals for transparent allocation.
- Implemented vesting schedule logic and milestone-based token releases for multiple stakeholder groups.
- Contributed to the company's UI package on npm; developed UI tests using **Storybook** and **Vitest**, reduced unpacked size by 20%
- Applied **SOLID** and **DRY** principles to maintain high code quality and scalability.

Merchant Platform

Aug 2024 - Mar 2025

React + Vite, Javascript, TailwindCSS, React Hook Form, Redux Toolkit, Socket.io

- *Description:* Payment platform for merchants to manage orders and transactions (cash, card, QR).
- Update the UI/UX and features based on design specifications and bank requirements.
- Participate in code reviews and contribute to frontend best practices.

ATOM HUB

Jun 2024 - Aug 2024

Next.js, Typescript, TailwindCSS, React Query, Redux Toolkit, React Hook Form, i18Next

- *Description:* Web-based Open API platform for partners to test and integrate applications.
- Develop new user-facing features primarily using Next.js, build reusable components for future use.

EDUCATION

Ho Chi Minh City University of Technology (VNU-HCMUT)

Oct 2020 - Nov 2024

Bachelor's Degree in Computer Science | GPA: 3.4/4

CERTIFICATIONS & AWARDS

- TOEIC Listening & Reading | Score: 810
- Software Development with Scrum - Axon Active
- Academic Encouragement Scholarship, Fossil Scholarship, CSE Alumni Scholarship
- Student with Five Good Merits Award (HCM City Level)

EXTRACURRICULAR ACTIVITY

Lead Designer, Multimedia Organization of CSE Faculty — Created media publications for CSE Job Fair, Green Summer Campaign, etc

Volunteer, Spring Volunteer Campaign — Supported underprivileged communities and primary schools.
