## ABOUT ME

As a Front-end Developer with **1+ years** of experience and a strong computer science background from HCMUT, I am passionate about crafting intuitive and visually appealing user experiences. Starting with a passion for design, I specialized in front-end development and am now on a journey to broaden my skills in back-end technologies. I aspire to contribute to innovative projects in a dynamic global environment where collaboration drives success.

## EDUCATION

### Ho Chi Minh City University of Technology (HCMUT)

Oct 2020 - Nov 2024

- Bachelor's degree, Computer Science
- GPA: 3.4/4 [Transcript](#) 

## WORK EXPERIENCE

### ATOM Solution - Esol Labs

Mar 2024 - Present

- Role: Front-end Developer
- Main stack: NextJS, ReactJS + Vite, Typescript, Javascript, TailwindCSS
- *Responsibility*: Contributed to large-scale banking projects in collaboration with BVBank (DigiStore) and OCB, focusing on developing and enhancing front-end features.

### Xelex Corporation

Jun 2023 - Aug 2023

- Role:: Software Engineering Intern
- Main stack: Angular, Typescript, TailwindCSS
- *Responsibility*: Participated in a collaborative mock project inspired by the Monday App, simulating real-world scenarios to develop skills.

## PROJECTS

### Merchant Platform

Aug 2024 - Present

- A payment platform for banks to manage sales and transaction reporting (cash, card, QR). It bridges banks and merchants, ensuring seamless transactions. Developed by ATOM, it is used by BVBank (Digistore) and OCB.
- *Responsibility*: Update the UI/UX based on design specifications and bank requirements, participate in code reviews and contribute to frontend best practices.

### ATOM HUB

Jun 2024 - Aug 2024

- A web-based OPEN API platform for partners to test and integrate their applications. The platform enables seamless API connectivity and supports various testing scenarios for API creation and validation.
- *Responsibility*: Develop new user-facing features primarily using Next.js, build reusable components for future use.

### Quizzes on-chain

Mar 2024 - May 2024

- A decentralized application on the SUI platform (Web3). Players can participate to create and answer quizzes in real-time. All results are stored on the blockchain.
- *Responsibility*: Connect wallet, integrate APIs and smart contracts into the app, develop user interfaces based on Figma designs.

- Form generator and management system similar to Google Form, Microsoft Form but more specialized in data types for administrative documents in Vietnam such as linked data types, tabular data types,...
- *Responsibility:* Build the entire Front-end system, UI/UX Design

## SKILLS

---

<b>Languages:</b>	Typescript, Javascript, C/C++, Python, Move
<b>Front-end Tech:</b>	ReactJS, NextJS, Angular, React Native, TailwindCSS, Redux, Redux Toolkit, React Hook Form, React Query, MUI, Mantine, Chart.js, etc
<b>Others:</b>	NestJS, MongoDB, MySQL, Jest, Selenium, SOLID principles, OOP methodologies
<b>Tools:</b>	Git, VSCode, Figma, Sourcetree, Jira Software, Postman, Docker, Adobe Photoshop, Adobe Illustrator

## ACHIEVEMENT & CERTIFICATES

---

### **Student with Five Good Merits Award - Ho Chi Minh City Level**

- Issued by Vietnam Union of Students of Ho Chi Minh City

### **Fossil Scholarship**

- Issued by Fossil Group | EMPOWERING IT YOUTH

### **Software Development with Scrum Certificate**

- Certified by Axon Active

### **TOEIC Reading & Listening | Score: 680**

## EXTRACURRICULAR ACTIVITY

---

### **Multimedia Organization of CSE Faculty**

- Lead of design team: Design media publications and other products for events such as the CSE Job Fair, the Green Summer Volunteer Campaign, etc.

### **Spring Volunteer Campaign of CSE Faculty 2020 - 2021**

- Volunteer: Support less fortunate people and primary students
