ABOUT ME

I am a recent graduate in Computer Science at Ho Chi Minh City University of Technology. With a passion for design, I chose front-end development as the first step in my career path. I am truly eager to learn more about back-end development and aspire to work in a dynamic environment where I can contribute and further develop my skills. I also enjoy working with people and believe that collaboration is key to creating successful projects.

EDUCATION

Ho Chi Minh City University of Technology (HCMUT)   **Oct 2020 - June 2024**

- Major: Computer Science
- GPA: 8.05/10 Transcript 🗗

WORK EXPERIENCE

ATOM Solutions - Esol Labs   **Apr 2024 - Present**

- Role: Front-end Developer
- Main stack: NextJS, ReactJS + Vite, Typescript, Javascript, TailwindCSS

Xelex Corporation   **Jun 2023 - Aug 2023**

- Role: Software Engineering Intern
- Main stack: Angular, Typescript, TailwindCSS

PROJECTS

Merchant Portal - BVBank   **Aug 2024 - Present**

- A management platform for merchants, this is one of the payment infrastructures in the collaboration project between ATOM and Viet Capital Bank to support payment solutions.
- Responsibility: Update, maintain source code based on design and client requirement, fix bugs and performance issues in the application.

ATOM HUB   **Jun 2024 - Aug 2024**

- A project for partner clients to explore, register, and test ATOM's products and services, with a primary focus on API testing.
- Responsibility: Develop new user-facing features primarily using React.js and Next.js, build reusable components for future use.

Quizzes on-chain   **Apr 2024 - May 2024**

- A decentralized application on the SUI platform. Players can participate to create and answer quizzes in real-time. All results are stored on the blockchain.
- Reponsibilities: Connect wallet, integrate APIs and smart contracts, develop user interfaces based on Figma designs.

Form Generator System - Graduation Thesis   **Oct 2023 - Jun 2024**

- Form generator and management system similar to Google Form, Microsoft Form but more specialized in data types for administrative documents in Vietnam such as linked data types, tabular data types,...
- Responsibility: Build the entire Front-end system, UI/UX Design

SKILLS

Languages: Typescript, Javascript, C++, Python, Move

Technologies: NextJS, ReactJS, WEB3, Angular, React Native, TailwindCSS, MongoDB, NestJS

Front-end Libraries: Redux, Redux Toolkit, React Hook Form, React Query, MUI, Mantine, ChartJs, etc.

Tools: Git, VSCode, Figma, Sourcetree, Jira Software, Postman, Docker, Adobe Photoshop, Adobe Illustrator

ACHIEVEMENT & CERTIFICATES

Student with Five Good Merits Award

• Issued by Vietnam National University - Ho Chi Minh City

Fossil Scholarship

• Issued by Fossil Group | EMPOWERING IT YOUTH

Software Development with Scrum Certificate

• Certified by Axon Active

TOEIC Reading & Listening | Score: 680

EXTRACURRICULAR ACTIVITY

Multimedia Organization of CSE Faculty

• Lead of design team: Design media publications and other products for events such as the CSE Job Fair, the Green Summer Volunteer Campaign, etc.

Spring Volunteer Campaign of CSE Faculty 2020 - 2021

• Volunteer: Support less fortunate people and primary students
